

NeuroVision AI Diagnosis Report

Patient: Anonymous

Date: 2025-10-26 20:50:44

Report ID: 71c8a302

Primary Diagnosis: meningioma

Brain Tumor Analysis - Meningioma

Classification: A tumor that arises from the meninges, the membranes that surround your brain and spinal cord.

Overview: Abnormal growth of cells in the brain that can be cancerous (malignant) or noncancerous (benign).

Common Symptoms:

Headaches that gradually become more frequent and severe, Unexplained nausea or vomiting, Vision problems

Diagnostic Approaches:

Neurological exam, Imaging tests (MRI, CT scan), Biopsy

Recommended Next Steps:

1. Consult with a neurologist to confirm the analysis
2. Additional diagnostic testing may be required
3. Discuss treatment options with your healthcare provider
